Dear Hiring Manager,

I am applying for the Paid Media Manager role at Propellic (remote, Canada-eligible). I live in Edmonton and can cover U.S. Central core hours. Propellic's focus on hands-on paid execution, testing discipline, and practical AI tooling matches how I work: stay in Ads Manager, sweat setup and pacing, and turn performance into clear next actions for the people who talk to the client. At Lumin Marketing Group I own Google Ads and Meta execution for 2 active SMB accounts, with GA4 reporting and Go High Level follow-up so leads do not stall after the click. I am Google Ads Certified.

How I would support Propellic paid media:

- Build and optimize Google Ads and Meta campaigns: structure, bids, budgets, creative tests, and search-term or audience hygiene
- Keep tracking, testing notes, and reporting accurate so Account Managers have usable input for client conversations
- Use Claude and Claude Code to speed research, draft angles, and document what worked, with human review before publish
- Flag creative and media opportunities early when performance data says a test should scale or stop

I am honest that travel and hospitality vertical depth, CTV or programmatic scale, and large multi-brand media books are still growing compared with Propellic's account set; my current book is two SMB accounts. What transfers is hands-on Search and Meta execution, Google Ads certification, conversion-minded reporting, and comfort using AI tools to work faster without skipping human review. Please confirm base compensation clears CAD \$60k. Resume attached.

Best regards,

Dylan Michael
