Dear Hiring Manager,

I am applying for the Temporary Customer Care Representative role with ATCO Gas in Edmonton. I want contact-centre work focused on billing and account accuracy, not sales. At Best Buy I support customers through account updates, returns, and confusing process questions: I verify details carefully, document cleanly, explain next steps clearly, and stay courteous when the conversation is stressful.

How I would support Customer Care & Billing:

- Assist customers promptly using established processes and professional communication
- Verify customer information carefully and keep records accurate in the system of record
- Investigate discrepancies with patience, escalate when needed, and leave complete notes
- Protect privacy and follow procedure while learning ATCO billing tools and rate calculations

I do not yet have utility call-centre experience, and I am ready to build that skill set on a 6-month temporary team where training and documentation standards are clear. Resume attached; I am available Monday to Friday between 8:00 a.m. and 5:00 p.m. and motivated by accurate customer care work in Edmonton.

Best regards,

Lillian Schule Zech
