Dear Hiring Manager,

I am applying for the Meta PPC Specialist role (Jobgether partner posting, remote Canada). I am based in Edmonton and available fully remote. At Lumin Marketing Group I plan and run Meta Ads campaigns for SMB clients: audience structure, creative tests, budgets, and reporting that shows what to scale next.

How I would support Meta paid performance:

- Build and optimize full-funnel Meta campaigns with clear targeting, bidding, and creative test plans
- Track CPL, ROAS, and conversion quality in Meta Business Manager and GA4; cut waste quickly
- Partner with creative on hooks, formats, and landing-page alignment so ads and offer match
- Use Claude and Claude Code for research and draft copy angles, with human review before publish

I am honest that multi-vertical lead-gen at large media-buyer scale is still growing compared with a dedicated Meta specialist bench, and that my book is SMB-agency rather than enterprise ecommerce only. What transfers is hands-on Meta and Google Ads ownership, paced testing, and clear reporting. I am targeting base pay at or above CAD \$60,000. Resume attached.

Best regards,

Dylan Michael
