Dear Hiring Manager,

I am applying for the Organic Growth Analyst role (Jobgether partner posting, remote Canada). I am based in Edmonton and available fully remote. At Lumin Marketing Group I own SEO research and execution for 2 active SMB client accounts: keyword research, competitor analysis, content audits, technical hygiene, and reporting that strategists and clients can act on.

How I would support organic growth delivery:

- Run keyword research, competitor analysis, and content audits using SEMrush / Search Atlas
- Support SEO strategy execution with clear deliverables, quality checks, and paced follow-through
- Build and maintain GA4 / Search Console / Sheets reporting with actionable recommendations
- Use Claude and Claude Code for research and drafting, with human review before publish

I am honest that deep enterprise Looker Studio / Ahrefs-at-scale agency tooling varies by client stack, and that formal B2B SaaS agency bench experience is still growing. What transfers is hands-on SEO ownership, a prior 30% organic traffic lift at Phantom Avenue, and comfort working independently in a remote, high-output environment. I am targeting base pay at or above CAD \$60,000. Resume attached.

Best regards,

Dylan Michael
