Dear Hiring Manager,

I am applying for the Digital Marketing Coordinator role at CanadaOne Auto in Edmonton. I live in Edmonton and can support multi-dealership digital work on site. At Lumin Marketing Group I execute paid search, paid social, SEO/GEO support, and GA4 reporting for SMB clients. I also spent a year as Service Manager at Audi Southgate, so dealership pace and customer language are familiar.

How I would support CanadaOne Auto marketing:

- Help plan and run Google Ads and Meta campaigns with clear weekly reporting and next actions
- Support SEO/GEO, Google Business Profile, and website content updates that keep rooftops consistent online
- Organize campaign data in Sheets / Excel and flag what to scale or pause
- Use Claude and Claude Code for research and draft copy, with human review before anything publishes

I am honest that manufacturer Tier-1 coordination across a full dealership group and in-house automotive retail tooling depth are still growing versus my current two SMB accounts. What transfers is hands-on Google and Meta execution, SEO support, GA4 reporting, and Fixed Ops communication habits from Audi Southgate. Resume attached.

Best regards,

Dylan Michael
