Dear Hiring Manager,

I am applying for the Digital Marketing Specialist role at Yellowstone to Yukon Conservation Initiative (CAD \$63k to \$84k posted). I live in Edmonton, one of the preferred locations listed. At Lumin Marketing Group I own digital delivery for 2 active SMB client accounts across SEO, WordPress updates, Google Ads and Meta campaigns, email/CRM follow-ups, and GA4 / Google Search Console reporting. Your mix of website and search work, email journeys, paid digital, and analytics-to-action reporting is a strong fit for that multi-channel ownership.

How I would support Y2Y digital marketing:

- Keep website pages and landing paths clear for search and supporter action: titles, metas, headings, internal links, and WordPress updates with plain-language rationale
- Plan and optimize paid search / digital campaigns (including Google Ad Grant style search work) with careful budget monitoring and weekly "what moved" notes
- Build email sequences and list hygiene habits that move people from awareness to engagement, adapting CRM workflows I already run in Go High Level
- Use Claude and Claude Code to speed research, draft QA checklists, and reporting templates, with human review before anything publishes

I am honest that NationBuilder depth, nonprofit fundraising CRM tenure, and agency/contractor management at conservation scale are still growing versus Y2Y's bench; my current book is two SMB accounts plus a strong multi-channel digital practice. What transfers is integrated SEO + paid + email execution, analytics that lead to next actions, and reliable remote collaboration from Edmonton. Resume attached. Happy to walk through a sample integrated campaign plan for awareness or supporter acquisition.

Best regards,

Dylan Michael
