Dear Hiring Manager,

I am applying for the SEO Account Manager role at VixelStudio (CAD \$70,000–\$80,000). At Lumin Marketing Group I own SEO delivery for 2 active SMB client accounts across keyword research, on-page work, WordPress updates, Google Business Profile / local hygiene, and plain-language lead notes. Your focus on local-service SEO where success is measured in qualified leads and revenue, not vanity rankings, matches how I already talk with owners.

How I would support VixelStudio SEO accounts:

- Own local SEO execution for service clients: GBP, citations, on-page, internal links, and content briefs tied to lead goals
- Run monthly strategy calls and weekly updates that explain what we did, what moved, and what is next in owner-friendly language
- Brief and support WordPress page work (titles, metas, headings, conversion paths) so sites stay aligned to search intent
- Use Claude and Claude Code to speed research, briefs, and reporting drafts, with human review before anything publishes

I am honest that Ahrefs, Elementor depth, Local Dominator / Nightwatch, and a book of 20–28 concurrent local-service accounts are still growing versus my current two-account Lumin book plus Phantom Avenue local SEO ownership. What transfers is hands-on local SEO, WordPress updates, client communication, and a bias toward leads and revenue over vanity metrics. Base range of CAD \$70,000–\$80,000 works for me. Resume attached. Happy to walk through a sample local-service SEO plan from GBP hygiene to a first monthly strategy call.

Best regards,

Dylan Michael
