Dear Hiring Manager,

I am applying for the Marketing Coordinator role at Jacked Factory (Nutra Holdings). I am based in Edmonton and open to remote Canada. At Lumin Marketing Group I own the day-to-day mix for 2 active SMB client accounts: social content calendars, Meta publishing, email/CRM campaigns, creative testing, and performance notes the team can act on.

How I would cover the coordinator scope:

- Own weekly/monthly content calendars across Instagram and email so campaigns and product priorities stay aligned
- Build, schedule, and QA email sends; keep CRM/follow-up hygiene tight so nothing stalls
- Support creator and promotional content coordination; keep assets on-brand and on-deadline
- Use Claude and Claude Code for research and drafting, with human review before publish; report what worked and what to test next

I am honest that large athlete/creator roster management at e-commerce scale is still growing, and that my deepest channel ownership is Meta/social plus email rather than TikTok-native influencer ops alone. What transfers is paced ownership, clear writing, and comfort shipping in a high-output environment. I am targeting base pay at or above CAD \$60,000. Resume attached; happy to walk through a sample content calendar or email QA checklist.

Best regards,

Dylan Michael
