Dear Hiring Manager,

I am applying for the Search Engine Optimization (SEO) Expert role at SiteNative. I am based in Edmonton and open to remote Canada work. At Lumin Marketing Group I own SEO and digital strategy for 2 active SMB client accounts, so organic work is not a side task. It is the weekly plan: keyword research, competitor analysis, on-page fixes, and reporting clients can act on.

How I would support SiteNative SEO delivery:

- Run keyword research, competitor analysis, and SERP tracking in SEMrush / Search Atlas
- Optimize WordPress structure, titles, and content for search intent and technical hygiene
- Track performance in GA4 and Google Search Console, then recommend clear next steps
- Use Claude and Claude Code for research and drafting, with human review before publish

I am honest that large multi-brand link-building programs and advanced crawl-scale enterprise audits are still growing compared with a full agency SEO bench. What transfers is ownership of organic growth, SMB SEO results (including a prior 30% organic traffic lift at Phantom Avenue), and paced delivery. I am targeting base pay at or above CAD \$60,000. Resume attached.

Best regards,

Dylan Michael
