Dear Hiring Manager,

I am applying for the Call Attendant (Remote) role with Dynacare / CannAmm. I am based in Edmonton and comfortable with remote phone-based customer care that depends on accurate booking notes, clear communication, and low error rates. My current Best Buy role is high-volume customer support: I gather complete information, document carefully, troubleshoot account and process issues, and escalate with useful detail when I cannot resolve something alone.

How I would support the CannAmm booking team:

- Handle inbound and outbound booking calls with a professional, calm tone
- Document every interaction according to procedure so internal teams can trust the record
- Troubleshoot booking problems quickly and escalate through the right channel when needed
- Keep a low error rate under pace, with reliable attendance and shift flexibility

I have not used Cantrak yet, and I learn new systems quickly when the process is clear. I am motivated by accurate service work that helps people complete important appointments without friction. Resume attached; happy to discuss remote setup, Edmonton training if required, and coverage across the stated hours including Saturday rotation.

Best regards,

Lillian Schule Zech
