Dear Hiring Manager,

I am applying for the Claims Advisor – Property role at Peace Hills Insurance in Edmonton. I hold CIPR #770356, I am preparing for Alberta Adjuster Level 1 licensing, and I am specifically looking for a property claims path where I can help insureds through stressful situations with clear communication and careful file work. Your posting notes this can be a strong start for someone beginning an adjusting career, which matches where I am headed.

What transfers from my customer-facing work:

- Gather complete information and document accurately so the next person (or future me) can trust the file
- Explain processes and options in plain language, with tact when customers are frustrated or confused
- Stay organized under pressure and keep follow-ups from slipping during busy periods
- Learn new systems and procedures quickly while protecting accuracy and professionalism

I want to be direct about fit: I do not yet have 1 to 2 years inside an insurance customer service desk, and I have not adjusted property files. My case for an interview is CIPR registration, Adjuster Level 1 preparation, strong high-volume service and documentation habits, and genuine commitment to a Peace Hills claims career in Edmonton. Resume attached; happy to discuss training expectations, Guidewire exposure, and how I can contribute while I build property claims depth.

Best regards,

Lillian Schule Zech
