Dear Hiring Manager,

I am applying for the Paid Search Specialist role at Acceler8 Labs (remote Canada). I live in Edmonton and meet your Canada residency requirement. At Lumin Marketing Group I plan and run Google Ads Search campaigns for SMB clients: keyword structure, ad copy tests, budgets, and reporting that shows what to scale next. I am Google Ads Certified and used to owning outcomes with clients directly.

How I would support Acceler8 ecommerce brands:

- Own day-to-day Google Ads Search builds, query mining, and ad tests with clear ROAS/CPA-style reporting
- Grow into Merchant Center, Shopping, and Performance Max on top of a solid Search foundation
- Partner with creative and paid social so search is part of a broader acquisition system
- Use Claude and Claude Code for research and draft angles, with human review before publish

I am honest that deep ecommerce Shopping/Merchant Center ownership and large multi-brand media books are still growing compared with Acceler8's portfolio scale; my current book is two SMB accounts rather than a full specialist caseload. What transfers is hands-on Google Ads ownership, certification, paced testing, and clear client communication. Resume attached.

Best regards,

Dylan Michael
