Dear Hiring Manager,

I am applying for the Marketing Specialist role at Binary Stream (remote Canada; CAD \$71,000 to \$85,000). I live in Edmonton and am a Canadian resident. At Lumin Marketing Group I own hands-on campaign execution for 2 active SMB accounts across Google Ads, Meta, email/SMS follow-up, and clear reporting so stakeholders know what moved and what to approve next.

How I would support Binary Stream marketing:

- Support multi-channel campaign execution: paid setup/tracking, email nurture, and coordinated timelines
- Keep CRM and campaign tracking clean (Go High Level today; ready to transfer process discipline into HubSpot)
- Help partner-style programs stay organized: assets, handoffs, follow-up, and post-campaign notes
- Use Claude and Claude Code for research and draft angles, with human review before publish

I am honest that deep HubSpot Marketing Hub ownership, multi-year B2B SaaS co-marketing, and large trade-show ownership are still growing compared with Binary Stream's Microsoft Dynamics partner motion; my current book is two SMB accounts rather than an ISV partner program. What transfers is hands-on digital campaign execution, email follow-through, conversion-minded reporting, and comfort using AI tools to work faster without skipping human review. Resume attached.

Best regards,

Dylan Michael
