Dear Hiring Manager,

I am applying for the Marketing Associate role at Edmonton Community Foundation. At Lumin Marketing Group I own digital delivery for 2 active SMB client accounts across paid search, Meta Ads, SEO, email/CRM workflows, landing pages, and GA4 reporting with clear next actions. Your mix of portfolio campaign ownership, multi-channel execution, SEO/GEO support, and data-backed optimization is a strong fit for how I already work in Edmonton.

How I would support ECF marketing:

- Plan and ship integrated campaigns across email, paid search, and digital ads with timelines, brand checks, and on-time deliverables
- Keep landing pages, tracking links, and audience segments tidy so campaigns are measurable and easy to improve
- Apply SEO and on-page updates within priorities set by marketing leadership, then report what moved and what to try next
- Use Claude and Claude Code to speed research, drafts, and QA checklists, with human review before anything publishes

I am honest that a formal marketing degree and deep nonprofit foundation CRM experience are still growing versus my agency and SMB path. What transfers is hands-on campaign ownership, Google Ads Certified execution, WordPress comfort, stakeholder communication from Audi Southgate Fixed Ops and client work, and a bias toward shipping measurable improvements. Resume attached. Happy to walk through a sample campaign plan for Student Awards or Charity Partners awareness.

Best regards,

Dylan Michael
