Dear Hiring Manager,

I am applying for the Google Ads Manager role listed through Jobgether (remote Canada, EST hours). I live in Edmonton and am eligible to work in Canada. The role's focus on Search builds, keyword research, bidding, budget pacing, creative tests, and ROI reporting matches how I already run paid search for clients. At Lumin Marketing Group I own Google Ads and Meta execution for 2 active SMB accounts, with GA4 reporting and Go High Level follow-up so leads do not stall after the click. I am Google Ads Certified.

How I would support this Google Ads Manager remit:

- Build and optimize Google Ads Search campaigns: keywords, negatives, bids, budgets, and RSA tests aimed at CPA and revenue contribution
- Monitor CTR, CPC, conversion rate, and spend; turn platform data into clear next actions in GA4 and Sheets
- Keep measurement honest and budgets paced so paid search stays efficient under time pressure
- Use Claude and Claude Code to speed research and draft angles, with human review before publish

I am honest that mature Display and YouTube books, plus large multi-client agency SEM portfolios, are still growing compared with a two-account SMB book. What transfers is hands-on Google Ads execution, Google Ads certification, conversion-minded reporting, CRM follow-through, and comfort using AI tools to work faster without skipping human review. Resume attached.

Best regards,

Dylan Michael
