Dear Hiring Manager,

I am applying for the Marketing Manager (Growth, Lifecycle & Retargeting) role at JRS College (remote Canada welcome). At Lumin Marketing Group I own multi-channel delivery for 2 active SMB client accounts across SEO, Google Ads, Meta, and Go High Level email/SMS follow-ups. Your focus on working stalled leads, first-touch sequences, and CRM-synced retargeting matches how I already keep campaigns accurate, measurable, and tied to real funnel stages.

How I would support JRS growth and lifecycle work:

- Build and QA segmented email/SMS journeys so new, stalled, and enrolled audiences get the right message at the right time
- Support Meta, TikTok, and Google retargeting with clear briefs, landing-page consistency, and conversion tracking notes
- Report open, reply, meeting, and enrolment trends by segment in plain language, then change the program based on what drops off
- Use Claude and Claude Code to speed drafts, checklists, and documentation, with human review before anything goes live

I am honest that HubSpot depth and education-admissions lifecycle are still growing versus my Go High Level and SMB stack, and that WhatsApp Business API at volume is newer for me. What transfers is campaign ownership, CRM automation, short-form copy, paid + organic coordination, and raising gaps early. Resume attached. Happy to walk through a sample stalled-lead win-back flow from signal to launch check.

Best regards,

Dylan Michael
