Dear Hiring Manager,

I am applying for the Marketing Automation Specialist role at Ross Video (remote Canada, CAD \$66,500--\$80,000). I am based in Edmonton and available fully remote. At Lumin Marketing Group I implement Go High Level CRM workflows: contact organization, email/SMS nurture, and lead follow-up so marketing data stays useful. I already use Claude daily for research and ops automation, with human review before publish.

How I would support Ross Marketing:

- Keep marketing contacts organized: imports, enrichment habits, segmentation by segment/persona/interest
- Build practical lists and nurture support so campaigns reach the right audiences
- Report on database coverage and conversion patterns with clear next actions
- Use Claude and Claude Code thoughtfully to improve data quality, drafts, and reporting efficiency

I am honest that Salesforce and Account Engagement (Pardot) depth is still growing versus your preferred stack; my hands-on automation work is primarily in Go High Level for SMB clients rather than enterprise MCAE. What transfers is CRM audience discipline, lifecycle follow-up, AI curiosity (including Claude), and paced delivery under ownership. Resume attached.

Best regards,

Dylan Michael
