Dear Hiring Manager,

I am applying for the Media and Performance Marketing Specialist role at ACX Corporate Support (remote or Edmonton). I live in Edmonton and am a Canadian resident. At Lumin Marketing Group I plan, launch, optimize, and report on Google Ads and Meta campaigns for SMB clients, then connect paid traffic to CRM follow-up so leads do not stall. I am Google Ads Certified. Earlier I worked Fixed Ops at Audi Southgate, so automotive pace and clear stakeholder updates are familiar.

How I would support ACX paid media:

- Build and optimize Google Ads and Meta campaigns with careful budget pacing and conversion-minded reporting
- Translate performance into plain-language next actions for brand, regional, and leadership stakeholders
- Support multi-location awareness work as I grow into OOH, DOOH, radio, and vendor coordination alongside digital
- Use Claude and Claude Code for research and draft angles, with human review before publish

I am honest that deep traditional media buying across 30+ markets, insertion-order vendor management, and a multi-year national collision-repair paid book are still growing compared with ACX scale; my current book is two SMB accounts rather than a full corporate media caseload. What transfers is hands-on Google and Meta execution, GA4-minded reporting, automotive Fixed Ops context, and comfort using AI tools to work faster without skipping human review. Resume attached.

Best regards,

Dylan Michael
