Dear Hiring Manager,

I am applying for the Digital Marketing Account Manager role at Digital Shift (remote within Canada). Your model matches how I already work with local businesses: own the client relationship, turn GA4 and campaign data into a plain-language story, and keep SEO, local search, paid social, and content moving without hiding behind vanity metrics. At Lumin Marketing Group I own strategy and delivery for 2 active SMB client accounts across SEO, Google Ads, Meta, CRM follow-up, and reporting.

How I would support Digital Shift home-service clients:

- Lead monthly reviews that connect traffic and spend to qualified leads and booked work, not dashboard noise
- Translate client goals into channel roadmaps across SEO, Google Business Profile, local AI visibility, paid social, video, and content
- Coordinate specialist delivery so work lands on time, on budget, and on strategy
- Use Claude and Claude Code for research and draft notes, with human review before anything goes to a client

I am honest that deep HVAC, plumbing, and roofing agency tenure is still growing versus my broader SMB book, and a larger curated portfolio is a step up from two active accounts. What transfers is client-facing ownership from Audi Southgate Fixed Ops and Lumin account work, local SEO and paid literacy, and reliable follow-through. Resume attached. I will also complete the Digital Shift application form.

Best regards,

Dylan Michael
