Dear Hiring Manager,

I am applying for the Marketing Specialist role at Global Traffic Group (St. Albert). At Lumin Marketing Group I own delivery for 2 active SMB client accounts across website copy, SEO, paid media, CRM follow-ups, and plain-language reporting. Your need for an independent operator who writes clearly, ships projects end to end, and supports sales with proposals and lead generation matches how I already work in the Edmonton area.

How I would support Global Traffic Group marketing:

- Write and refresh website pages, case-style articles, social posts, and product descriptions that turn technical traffic-safety offers into clear buyer language
- Keep CRM contact lists clean, run practical email sequences, and hand sales better-qualified opens and follow-ups
- Support proposals and presentations with tighter writing, consistent visuals, and checked facts before release
- Use Claude and Claude Code to speed drafts and QA checklists, with human review before publish; coordinate routine WordPress edits and GA4 notes

I am honest that deep municipal RFP volume, Pipedrive administration, and Elementor-heavy page builds are still growing versus my Go High Level, WordPress, and SMB agency stack. What transfers is ownership from idea to ship, strong writing under deadline, AI judgment called out in your preferred tools list, and stakeholder communication from Audi Southgate Fixed Ops and client work. Resume attached. Happy to share writing samples and a short website or campaign teardown.

Best regards,

Dylan Michael
