Dear Hiring Manager,

I am applying for the Content Marketing Specialist role (remote Canada via Jobgether). At Lumin Marketing Group I own delivery for 2 active SMB client accounts across SEO content, landing pages, Google Ads and Meta creative tests, and Claude-assisted drafts with human review before publish. Your need for AI-native content, organic search, and conversion-minded pages matches how I already ship work.

How I would support this role:

- Own SEO content and landing pages end to end: keyword research, search intent, on-page structure, clear CTAs, and mobile-ready layout
- Use Claude and Claude Code to speed outlines and first drafts, then edit for clarity, tone, and accuracy before anything goes live
- Support paid creative tests on Google and Meta with on-brand copy and simple performance notes
- Monitor Google Search Console, GA4, and SEMrush / Search Atlas, then turn findings into next actions
- Work independently as the primary marketer on a channel, while collaborating cleanly with product and stakeholders

I am honest that deep generative imagery / video production volume, healthcare clinical compliance review, and Ahrefs day-to-day are still growing versus my SEMrush, Search Atlas, photography/video-for-social, and SMB agency stack. What transfers is SEO writing ownership, landing-page craft, AI-draft editing with judgment, paid creative support, and reliable remote delivery. Resume attached. Happy to share writing samples and a short page rewrite. Please confirm base pay is at least CAD \$60,000.

Best regards,

Dylan Michael
