Dear Hiring Manager,

I am applying for the Senior Digital Marketing Coordinator role (remote, Canada) listed through Jobgether. At Lumin Marketing Group I own multi-channel delivery for 2 active SMB client accounts, so paid media, SEO, WordPress updates, CRM nurture, and reporting are weekly work, not theory.

How I would support campaign execution:

- Plan, launch, and optimize Google Ads and Meta campaigns with clear tests and budget discipline
- Improve organic visibility and site UX through SEO basics, WordPress content updates, and conversion-minded fixes
- Track performance in GA4 and Google Search Console, then turn numbers into next-step recommendations
- Build and maintain CRM / marketing automation follow-ups in Go High Level (email and SMS)
- Use Claude and Claude Code for research and drafting, with human review before publish

I am honest that enterprise marketing-automation platform depth (for example Marketo-scale stacks) is still growing. What transfers is paced ownership across paid, organic, web, and reporting for live client accounts. I am targeting base pay at or above CAD \$60,000. Resume attached.

Best regards,

Dylan Michael
