Dear Hiring Manager,

I am applying for the SEO Strategist role listed through Jobgether (remote Canada). I am based in Edmonton and work Mountain Time with flexible overlap for North American client calls. At Lumin Marketing Group I own SEO delivery for 2 active SMB client accounts: keyword research, on-page and technical basics, competitor analysis, and GA4 / Google Search Console reporting that turns into prioritized next actions clients can understand.

How I work with clients and SEO:

- Lead the SEO conversation: what matters now, why it matters, and what to do next
- Ship on-page and content updates in WordPress with solid titles, metas, headings, and internal links
- Track organic performance and write concise client-ready updates
- Use Claude and Claude Code for research and drafting, with human review before publish

I am honest that most of my SEO ownership has been SMB / local service businesses rather than multi-year B2B SaaS agency portfolios of 3 to 5 accounts. What transfers is client-facing clarity, execution ownership, and a builder pace. I am motivated by the SaaS SEO and AI-search side of this role and can ramp on partner playbooks quickly. Please confirm base compensation clears CAD \$60k. Resume attached.

Best regards,

Dylan Michael
