Dear Hiring Manager,

I am applying for the Specialist, SEM role at Marketbridge (remote, EST hours). I live in Edmonton and am eligible to work in Canada. Marketbridge's focus on connecting paid activation with measurement for B2B brands matches how I already run search: build clean Google Ads structure, pace budgets, test copy, and report what to do next. At Lumin Marketing Group I own Google Ads and Meta execution for 2 active SMB accounts, with GA4 reporting and Go High Level follow-up so leads do not stall after the click. I am Google Ads Certified.

How I would support Marketbridge SEM:

- Build and optimize Google Ads search campaigns: keywords, negatives, bids, budgets, and RSA tests aimed at CPA and pipeline contribution
- Keep measurement honest: reconcile platform results with GA4 and simple Sheets reporting stakeholders can act on
- Support A/B tests across ads and landing-page alignment so paid traffic converts, not just clicks
- Use Claude and Claude Code to speed research and draft angles, with human review before publish

I am honest that Microsoft Advertising as a mature daily channel and Fortune-scale B2B SEM books are still growing compared with Marketbridge's client set; my current book is two SMB accounts rather than a large B2B agency portfolio. What transfers is hands-on Google Ads execution, Google Ads certification, conversion-minded reporting, CRM follow-through, and comfort using AI tools to work faster without skipping human review. Resume attached.

Best regards,

Dylan Michael
