Dear Hiring Manager,

I am applying for the Content Editor & Specialist role at Organic Checkout (remote Canada, CAD \$60,000). At Lumin Marketing Group I own delivery for 2 active SMB client accounts across SEO writing, local landing pages, website updates, and editing AI-assisted drafts into clear human copy before publish. Your need for high-volume SEO and GEO content with strong editorial judgment matches how I already ship work.

How I would support Organic Checkout content:

- Research keywords and search intent, then write or rewrite long-form pages, blogs, and local / location landing pages that stay accurate and readable
- Edit rough or AI-generated drafts into natural language, fix structure and tone, and keep a consistent editorial bar across client industries
- Keep WordPress and Shopify pages on-brief for on-page SEO, with Google Search Console checks when crawl or indexing issues show up
- Use Claude and Claude Code to speed outlines and first drafts, with human review before anything goes live

I am honest that deep reputation-management publishing volume, parasite SEO workflows, and Surfer / NeuronWriter day-to-day are still growing versus my SEMrush, Search Atlas, and SMB agency stack. What transfers is SEO writing ownership, local page craft, AI-draft editing with judgment, and reliable remote delivery. Resume attached. Happy to share writing samples and a short page rewrite.

Best regards,

Dylan Michael
